**IT ONLY TAKES MINUTES FOR A DOG TO DIE IN A HOT CAR!**

### **NEVER, EVER, EVER LEAVE YOUR PET IN THE CAR.**

In nice weather you may be tempted to take your pet with you in the car while you travel or do errands. But during warm weather, the inside of your car can reach 120 degrees in a matter of minutes, even if you're parked in the shade. - If you do happen to see a pet alone in a car during hot weather, alert the management if the store where the car is parked or call local animal control or the police department immediately.

### **KEEP YOUR DOG'S PAWS COOL.**

When the sun is cooking, surfaces like asphalt or metal can get really hot! Try to keep your pet off of hot asphalt; not only can it burn paws, but it can also increase body temperature and lead to overheating. It's also not a good idea to drive around with your dog in the bed of a truck- the hot metal can burn paws quickly.

**IF IT'S HOT FOR YOU, IT'S HOT FOR THEM.**
